

STUDENT MEMBER

Student membership

The student member grade applies to students on ICES accredited courses. Whether you are a student, graduate or an experienced surveyor, ICES membership is internationally recognised and can help to further your professional development and employability.

Key benefits

- Free membership for the duration of the course.
- The opportunity to become an active member of the ICES Network and participate in its activities.
- Eligibility to enter the ICES student prize and award schemes.
- Eligibility for students on degree courses to upgrade to graduate membership.
- Students on sandwich courses are eligible to count their placement year towards the ICES experience requirements.
- Reference to membership of a specialist professional institution on your CV.
- A monthly e-newsletter listing of news and technical events.
- Ten copies per year of the Institution journal, *Civil Engineering Surveyor*, in at least your third year of study (all students can access the journal electronically via their course tutor).
- Access to ICES regional events.

Engineer a better future

Your academic qualifications will act as a passport to new jobs in the UK and abroad. Lots of companies have postgraduate schemes, allowing you to gain a professional qualification whilst in employment. Be sure to visit the ICES website recruitment page when thinking of applying for jobs. The Institution of Civil Engineering Surveyors accredits a range of commercial management and geospatial engineering surveying undergraduate and postgraduate courses at universities and colleges across the UK, Ireland and Hong Kong. Visit the ICES website for more details.
