

TECHNICAL MEMBER

Technical membership

Technical membership is available for both commercial management and geospatial engineering specialists.

A technical member is committed to maintaining the ICES continuing professional development (CPD) requirements.

Key benefits

- The award of the designatory letters TMInstCES.
- A recognised qualification at technical level.
- The opportunity to apply to upgrade to corporate membership, when eligible.
- A monthly e-newsletter listing of news and technical events.
- Ten copies per year of the Institution journal, *Civil Engineering Surveyor*.
- Access to ICES regional events.
- The opportunity to become an active member of the ICES Network and participate in its activities.
